Tiercel Technology Corp.

TIERCEL TECHNOLOGY CORP. ACQUIRES SECOND WIND AIR PURIFIER

Princeton, Ontario, March 28, 2011

Acquisition of Second Wind Air Purifier

Tiercel Technology Corp. is pleased to announce the acquisition of Second Wind Air Purifier, Company of Medina, New York.

Since 1990, Second Wind Air Purifier has been the recognized leader in ultraviolet air purification equipment across residential, commercial and medical applications. Second Wind was the first to introduce dual-wave length lamp technology, significantly enhancing ultraviolet air purification.

“This is an exciting opportunity for us to continue to evolve the Second Wind Air Purifier product design and functionality as well as the markets served” states Tom Wilson, President of Second Wind Air Purifier.

“This acquisition is strategic for Tiercel Technology Corp. to manufacture an FDA class 2 medical device and globally expand the marketing initiatives” states Bruce Seeley, President of Tiercel Technology Corp. “In order to better serve the growing international markets of the Second Wind product, manufacturing will be expanded from the current Medina, New York facility to our ISO registered manufacturing facility in Brant County, Ontario”.

About Tiercel Technology Corp.
